## **Wombat Consulting Announces Support for Boston Options Exchange (BOX) Market Data Feed**

*Incline Village, NV - February 4, 2004* – Wombat Consulting, Inc., an independent financial software development company, announced today that it has added a feed handler for the new BOX HSVF market data feed to its universal market data feed handler suite.

The HSVF feed is available to BOX participants only. More information about the new feed can be found at: <http://www.bostonoptions.com>

The Wombat BOX feed handler contains all of the usual configuration and administrative controls that are available to the rest of the universal feed handler suite. The feed handler is available for all market data platforms supported by Wombat, including TIBCO MDS, MDRV (TIB/RV direct), and Reuters Triarch/RM-DS.

A White Paper [<http://www.wombatfs.com/technical/index.htm>] describing the Wombat Universal Feed Handler Suite is available. For more general information about Wombat's market data feed handlers [[http://www.wombatfs.com/products/fh\\_overview.htm](http://www.wombatfs.com/products/fh_overview.htm)], please contact us [[http://www.wombatfs.com/about/contact\\_wombat.htm](http://www.wombatfs.com/about/contact_wombat.htm)] [[http://www.wombatfs.com/about/contact\\_wombat.htm](http://www.wombatfs.com/about/contact_wombat.htm)] or visit our web site at <http://www.wombatfs.com>
