Wombat Announces Feed Handler for Pink Sheets QDIST

June 16, 2006 - The Pink Sheets Electronic Quotation Service (EQS) is a quote medium for OTC securities on a real time basis. The EQS allows market makers to publish quotes that are redistributed in real-time over its proprietary network and to market data vendors. PinkSheets QDIST is a vendor level data feed that gives access to the entire EQS quote montage, or the top of the book (NBBO). For further detail on Pink Sheets QDIST, visit their web site at: www.pinksheets.com/products/datafeed.jsp [<http://www.pinksheets.com/products/datafeed.jsp>]

The Pink Sheets QDIST feed handler provides orderbooks and Wombat calculated top of book quotes (WBBO) both at a Market Maker and market level for each security, in addition to the Pink Sheets inside quotes. This feed handler, which further extends our coverage of the North American market, is compliant with all market data platforms supported by Wombat.

A complete list of Wombat feed handlers is available on the web at: www.wombatfs.com/products/feedhandlers.htm [<http://www.wombatfs.com/products/feedhandler.htm>]
