## Wombat Announces Feed Handlers for NYSE Best Quotes

Oct 26, 2006 - Wombat has released a first cut version of its feed handler for the NYSE Best Quotes in time for the NYSE's unveiling of this real time data feed next week (Nov, 1 2006). This beta version of the feed handler has been run through the Tuesday and Thursday test cycles this week and is available before Saturday's test runs.

NYSE Best Quotes (best bid/ask quotations) is provided directly from the NYSE rather than via its SIAC Consolidated Quotation System (CQS) which makes it significantly faster. As NYSE puts it: " NYSE OpenBook + NYSE Best Quotes = Complete Liquidity Picture ".

For further details on the NYSE Best Quotes visit: <http://www.nysedata.com/openbook> [<http://www.nysedata.com/nysedata/InformationProducts/NYSEInfoTools/NYSEInfoToolsPilot/tabid/309/Default.aspx>]

The Wombat NYSE Best Quotes feed handler, which is compatible with all market platforms supported by Wombat, joins Wombat's ProTrac and ReTrac (NYSE InfoTools), NYSE OpenBook and NYSE Alerts feed handlers. The full compliment of Wombat's NYSE feed handlers will be available soon when the Wombat NYSE Liquidity Replenishment Points (LRP) feed handler is announced.

A complete list of Wombat feed handlers is available on the web at: [www.wombatfs.com/products/feedhandlers.htm](http://www.wombatfs.com/products/feedhandlers.htm) [<http://www.wombatfs.com/products/feedhandler.htm>]
