Wombat Announces Feed Handlers for ICAP IConnect and Currenex FIX

Dec 11, 2006 - Wombat has released two feed handlers for the over the counter securities markets: ICAP IConnect, and Currenex Financial Information Exchange (FIX).

ICAP generates on average thousands of price points daily to cover the span of fixed income markets as well as money markets, interest rate derivatives, options and currency markets worldwide. For further detail on ICAP visit: <http://www.icap.com/>

Currenex offers corporate and institutional buyers and sellers in the FX and money markets access to the \$1+ trillion a day global FX market. Currenex FIX provides a high speed multi-bank gateway, allowing clients to access market data with the full depth of book. For more information on Currenex FIX, visit: <http://www.currenex.com/index.html> [<http://www.currenex.com/index.html>]

The Wombat Currenex feed handler (available since 2003), Wombat Currenex FIX feed handler and Wombat ICAP IConnect are compliant with all market data platforms supported by Wombat. Customers interested in data feeds from inter-dealer brokers should note that Wombat is currently developing a feed handler for eSpeed. Wombat also provides access to an array of FX markets, (Barclay's FX, EBS, Hot-spot FX, Lava FX and Lehman) and is currently developing feed handlers for Deutsche Bank FX and UBS.

A complete list of Wombat feed handlers is available on the web at: www.wombatfs.com/products/feedhandlers.htm [<http://www.wombatfs.com/products/feedhandler.htm>]
