Wombat Announces Support for FXMarketSpace™ Content

March 23, 2007 - Wombat has announced support for FXMarketSpace (FXM) introduced via the CME Globex Platform, using an extension of the Wombat CMEMDP feed handler. Reuters and CME have jointly created FXM, the world's first centrally cleared global foreign-exchange (FX) marketplace. FXM is a separate exchange listing over-the-counter FX instruments for trading via the CME Globex platform.

For more details on FXM visit: www.cme.com/clearing/clr/clradv/20358.html [<http://www.cme.com/clearing/clr/clradv/20358.html>]

Market participants are now offered the choice of the Wombat CMEMDP feed handler and Wombat CMEMDP feed handler with FXMarketSpace, both of which are compatible with all market platforms supported by Wombat. Wombat's CME customers should contact their sales representative to license an additional binary upgrade in order to receive this content.

A complete list of Wombat feed handlers is available on the web at: www.wombatfs.com/products/feedhandlers.htm [<http://www.wombatfs.com/products/feedhandler.htm>]
