Wombat Announces Madrid Stock Exchange Feed Handler

April 19, 2007 - Wombat has released its feed handler for the Madrid Stock Exchange, providing market participants with access to the Spanish SIBE equity markets.

The Madrid Stock Exchange forms part of the Bolsas Mercados Espanoles (BME) and is the primary market in Spain where they formalise transactions or capital increase. Fixed income securities (both government and private sector) are also traded on this stock market.

For further details on the Madrid Stock Exchange visit:www.bolsamadrid.es/ing/portada.htm
[<http://www.bolsamadrid.es/ing/portada.htm>]

The Wombat Madrid Stock Exchange feed handler, which further extends Wombat's coverage of the European market, has passed all the exchange's conformance tests and is compliant with all the market data platforms supported by Wombat. Market participants should note that Wombat offers coverage of the European market including feed handlers for Euronext Liffe and Eurex Unnetted Members API.

A complete list of Wombat feed handlers is available on the web at:www.wombatfs.com/products/feedhandlers.htm [<http://www.wombatfs.com/products/feedhandler.htm>]
